## Admission Policy

- Parents must be linked (staff member or student) to the University of Cape Town.
- We accept children according to date of application, however preference will be given to siblings of present children at the school.
- Completion of the application form does not guarantee that you child will be accepted at the UCT Educare Centre. Parents will be advised July/August of the year prior to the date of entry, whether a place is available for their child. If a place is not available, applications will be retained for possible placement in the event of a cancellation or resignation later in the year or at the start of the new year.
- If you have not heard of us by October, the year before your child should start, it is your responsibility to contact us to follow-up on the status of your application, which might have been put on the waiting list for the following year.
- Any child/learner irrespective of race, culture, and creed has the right to education.
